What an exciting week we have had with the highlights being the visit of John Shimmin with his drone and surveying equipment and the Tainui Athletics Day - what a fabulous well organized day in the sunshine.

Thank you to the parents who came and supported the students at Athletics Day - they always respond well to cheers from the crowd and the students can be well proud of their efforts. They are so lucky to have such a wide variety of events to participate in at a primary school level. Congratulations to all our participants you certainly did our school proud (see attached photo collage) results will be reported when they come to hand.

Students really enjoyed the second visit from the Highway Bypass Team last week. The surveyor from NZTA talked to students about his work including viewing a digital flyover of the proposed highway route. Claude even had a driving lesson, driving the new road in a virtual car. Students were able to use some surveying equipment John had set up and he demonstrated the way they use drones in their work including taking aerial photographs of the students and the school.
